Fairy Oak: The Dark Enchantment

*“There was an Era, a very ancient time, in which it is said that Light and Dark were as one.
A single power.*

*Who possessed it ruled the world for many thousands of years, in peace and harmony,
orchestrating, with a perfect ear, day with night, cold with heat, the beautiful with the ugly,
rain with sunshine, without overlooking a single nuance.*

The Earth was most beautiful.

The ancient ones would tell you that this was the Era of the Beginning. The Beginning of the end.

Because even then someone was already a traitor.

*Without a precise reason, suddenly, he turned his back on harmony and equilibrium.
And without asking permission, he imposed night upon the day, rain upon the sunshine,
hate upon love, darkness upon light...”*

In Fairy Oak the time of peace seems destined to end, because the old Enemy has returned to seek revenge and not only that.

The Lord of the Dark wants to rule the world in the shadows and to do this he has to destroy the other half of magical power: the Light.

In the 2nd chapter of the trilogy, the Enemy besieges Fairy Oak.

The defence of the village is entrusted to the Magicals, who in the past have already succeeded in driving the Enemy out, but he manages to infiltrate their ranks and the Ancient Alliance begins to waver.

Hope is in the young hands of Heather and Lavender, the twin witches and a living symbol of the ancient alliance: Light and Dark in the same kin: “two sides of a coin that should not exist”.

It is this bond that the Enemy tries to sever with his axe.

Like day and night, equal and opposite, Light and Dark are believed to be inseparable and both necessary, their incessant alternating keeps the worlds wheel in motion and allows life to regenerate itself.

To destroy this all, the Terrible 21st must separate the twins, pit one against the other, break the Alliance, only in this way he will be able to win and you can bet he’ll do his worst to succeed.

A long, dangerous journey waits then for the girls, deep into the labyrinth of their own powers, the one that creates and the other that destroys. A long journey deep inside their hearts and against all odds.

At the end of it, when eventually everything seems lost and darkness already cloaks the valley, the twins understand their mission and by casting the most spectacular spell they save their world and people from the old Enemy. But they won't do all this by themselves!

Four elements will become their precious allies: friendship, trust, history and love.

Unfolds like this, among countless adventures Telli's tale, the luminous fairy whose difficult task is to protect the twin witches of Fairy Oak.
